10. Next you need to open the remote access and access Autodesk online to create an user account. 11. Click on the close button on the remote access, it should show: 'Thank you for your request'. 12. You should get a screen with the message: 'You have been successfully activated.'. 13. Click on the activation code received. This should show: 'You have successfully activated the software and have an activation code for you to use to activate the software on your computer.'. 14. On the screen, click on the 'Activate' button and you should be able to use the software. Step 3: How to change the IP When you first activate the software you will see a green arrow on the top right hand side of the screen. Once you start working with the software, the arrow changes to a red cross. If you decide that you do not want to use the software anymore, then simply disable the software by opening the 'Tools' menu and select 'Disactivate'. Step 4: How to access your SD card You should be able to find the data stored in your SD card in the 'My Documents' folder on your computer. When you activate the software, a folder called 'my Autodesk Content Folder' will appear in the 'My Documents' folder on your computer. This folder is where your Autodesk data will be stored. You will see a list of different Autodesk products in this folder, including the name of your license. If you are looking for your Autodesk software, then you will need to find the 'my Autodesk Content Folder' folder and look for the folder you purchased the software from. You can also find the different folders by using the search function of your computer. Step 5: How to activate different Autodesk products Once you have the Autodesk software you purchased activated, you can activate any of the other products that you have purchased. The first thing you need to do is go to the Autodesk website and log on using the code from your activation code. Go to the Autodesk website and select the account you created when you first purchased the software. From there, you should see a link called 'activate next-gen products'. Select this link and follow the steps. Concerns about purchasing 82157476af
